

**Serbia, Bulgaria
Croatia, Romania**

In view of the national legislation in force on the conduct of sporting events during a COVID-19 pandemic, the following categories of persons may attend the match:

- A. Persons who are vaccinated against the SARS-CoV-2 virus for which 10 days have elapsed since the completion of the complete vaccination schedule; documents required at the entrance to the hall: the vaccination certificate (on paper or by phone) and an identity document.
- B. Persons who present a negative result of an RT-PCR test not older than 72 hours before the start of the match; documents required at the entrance to the ward: certificate certifying the negative result (issued by an accredited medical center) and an identity document.
- C. Persons between the 15th and 90th day after confirmation of SARS-CoV-2 infection; documents required at the entrance to the hall: the test confirming the infection with the SARS-CoV-2 virus or the certificate of cure and an identity document.
- D. Persons who present the negative result certified by a medical unit of a rapid antigen test not older than 24 hours before the start of the match; documents required at the entrance to the ward: the certificate certifying the negative result (issued by an accredited medical center) and an identity document. Tests purchased from the pharmacy are not valid. The Romanian Volleyball Federation will organize a rapid testing center near BTarea, on Aleea Stadionului next to the 4Champions restaurant. The price of a test is 50 lei, and the center opens an hour and a half before the start of the match.
